NOTICE

Due to the greater demand for grafted liners, we are limited for space. In our past experience of orders which have been filled, the varieties listed are in greater demand. This forces us to build up on some varieties and discontinue others; however we are listing some varieties which we will still keep but will take only a limited amount on orders. These varieties are marked with an asterisk (*). In the event of ordering any of these varieties, please write first, as we said before, we only graft in limited amounts.

We would also like to point out at this time that orders must be placed well in advance to have the listed varieties of your choice. We suggest ordering as early as possible - 6 to 9 months before delivery date. This should be done especially for orders on the grafted liners with 3-5 branches.

In the event of last minute orders, we may have a surplus on hand to fill the order.
